NEVADA STATE BANK GRANT REQUEST FORM

The federal Community Reinvestment Act (CRA) encourages financial institutions to help meet the credit needs of their local communities, consistent with safe and sound lending practices. CRA regulations are designed to ensure that banks respond to the needs of low- to moderate-income neighborhoods. The law provides a structure for financial institutions and community organizations to work together to promote the availability of credit and other banking services to under-served communities.

All grants from Nevada State Bank will be made to community organizations whose primary purpose is “community development” and whose services benefit areas or individuals within the Bank’s CRA Assessment Areas. Community Development is defined as activities that promote economic development; that support permanent job creation, retention, and/or improvement for low- and moderate-income (LMI) individuals; activities that revitalize or stabilize LMI geographies; activities that promote community services targeted to LMI individuals including shelter, food, education, health or social services. Low-income is defined as income that is less than 50% of the area median income. Moderate-income is defined as income that is between 50% - 80% of the area median income.
