Nevada State Bank hosts March 1 “Simplify Your Accounts Payable” webinar for businesses

LAS VEGAS – Technology for automating business processes is changing the way American companies operate, helping them increase efficiencies and reduce costs. And yet, most companies don’t take advantage of the available technology to help them automate financial tasks like bill-paying, instead using paper-based manual processes that are not only inefficient, but may also expose them to risk of internal and external fraud.

Nevada State Bank will be addressing these issues in a free webinar on March 1, when viewers can learn:

- Why companies are reluctant to automate accounts payable systems.
- How modern finance departments can use technology to their advantage.
- How companies can partner with their bank to implement processes and solutions to simplify and streamline accounts payable.

This webinar will all include a presentation of the bank’s new product, Integrated Payables, an accounts payable automation solution to automate accounts payable processes, from invoice capture to payment execution.

Nevada State Bank presents this **free webinar, “Simplify Your Accounts Payable,” on Thursday, March 1, from 10 a.m. to 11 a.m. Pacific Time.** Open to the public, registration can be found [here](#).

The webinar “Simplify Your Accounts Payable” is offered for informational purposes only and should not be construed as legal or other professional advice. Consult with an attorney or other professional concerning your own needs and circumstances. The views and opinions expressed by the speakers are not necessarily those of Nevada State Bank, Zions Bancorporation or its affiliates.
